INFORMATION FOR JDUB 2023

Drop Off/Pick Up: All classes that meet on the main campus will have students enter and exit through the Paul Heath Community Education and Fine Arts Center entrance. Students will be grouped by class in the lobby, and their instructor will walk with them to their classroom. We ask that a parent/guardian walk their child inside to meet with their class on the first day of each class. After that, parents can drop off/pick up outside the Paul Heath Community Education and Fine Arts Center entrance if they choose. A campus police officer will be on duty during regular drop-off/pick-up times. Children should arrive no earlier than 10 minutes before class and be picked up no later than 10 minutes after class. The beginning and end times of classes are listed on each course schedule.

Field Trips: Some classes will take a field trips or buses to an off-site location. This will be included in the original course description, or a note will be sent home with your child. Please know that buses will leave on time and will not wait for late arrivals.

Registration: Registration must occur by the Wednesday before the class session starts. Please understand that many registrations are submitted and are first come, first served. We try to process registrations promptly and will do our best to reach out to you by the end of the following business day to request payment since we cannot take payments online. We will reach out for payment up to three times and will leave a message when possible. However, we can only hold a spot for your child if payment has been made. Your child is fully registered for class(es) after we have received payment and any required liability forms have been submitted. We will confirm your child's registration and send a copy of their course schedule through email.
